

Clarifications of Pre-bid queries in form of F.A.Q

PN : 12.1003.8-712.01

Date: 02.06.2023

SAP No. 83439388

***This clarification is intended to all interested tenderers, consolidating the queries of all bidders for information of all.***

S No	Queries	Responses
1	What amount of support will we be getting from GIZ to connect with Government body and other stakeholder? Will GIZ act as direct liaison for official communication and invitations to government dignitaries or will this be in Agency Scope?	<p>Yes, GIZ would provide support to connect with Government bodies and other stakeholders within their network. But it is also the responsibility of the agency to identify and invite potential stakeholders to be part of various workshops.</p> <p>Yes, GIZ will act as a direct liaison for official communications and invitation to government dignitaries, where-ever deemed necessary.</p>
2	Will the workshop related expenses paid on actuals?	<p>The workshop related expenses will be paid on the actuals based on the prior approvals taken before booking. The Travel, Accommodation and per diem allowance of personnel should not be included in the workshop expense, they will be reimbursed separately.</p> <p>Though, this can also be reconsidered at the time of contracting stage.</p>
3	Page 6: Will the best practices of ASCENT program such as ToT, AR/VR content/job portal, digital learning etc be provided by GIZ? Will there be separate agency to demonstrate these specially AR/VR content?	Yes, the base content on the best practices will be provided by GIZ, basis which the agency shall design a short marketing video.
4	Do you want to live telecast the workshop for better reach?	No

5	<p>Page 18./ 6. Costing Requirements The total number of travel days, including all the experts mentioned, is 547. But then in the below paragraph, it is mentioned that <b>"up to 72 flights and the assignment foresee up to 34 overnight stays at the locations and 80 days of per diem allowances."</b> Is this per expert? Or in total for all experts? If it is in total, then kindly share a breakdown of how it is planned from your end. This will help us provide you with a detailed breakdown.</p>	<p>547 is the total number of expert days for the assignment and not the total number of travel days. The table under specification of inputs clearly provides details on the travel/ field days for the experts. The other figures mentioned ("up to 72 flights and the assignment foresee up to 34 overnight stays at the locations and 80 days of per diem allowances.") are in total for all the experts expected to travel as per the table.</p>
